Education

Maulana Azad National Institute Of Technology(NIT Bhopal)

Btech in Computer Science CGPA-7.71

July.2023 – April 2025

Bhopal, Madhya Pradesh

JEE Mains And Advanced Qualified

All India Rank -7401

July.2018 – June 2021

Indore, Madhya Pradesh

Relevant Coursework

- Data Structures
- Database Management System(DBMS)
- Operating System
- OOPS Concepts
- Algorithms Analysis
- Computer Network

Projects

Food Delivery Website | *React.js, Express.js, Node.js, MongoDB*

January 2023

- Developed a full-stack food ordering website (GoFood) using the MERN stack (MongoDB, Express.js, React, Node.js), enabling seamless user experiences across web platforms.
- Implemented a robust user authentication and authorization system with JWT to ensure secure access and personalized user interactions.
- Designed and optimized a responsive UI using React and Bootstrap, improving user engagement with intuitive navigation and dynamic content delivery.

Real Estate Management System | *React.js, Node.js, Express.js, MongoDB*

May 2024

- Developed a full-stack real estate platform enabling property listing, search, filtering, and management functionalities.
- Designed RESTful APIs using Express.js and implemented secure authentication and authorization mechanisms.
- Built responsive user interfaces using React.js and optimized MongoDB queries for efficient property retrieval.
- Implemented role-based access control for buyers, sellers, and administrators while maintaining secure data management.

Technical Skills

Programming Languages: C/C++, Python, Java, JavaScript, SQL

AI & Machine Learning: Machine Learning, Generative AI, LLMs, Prompt Engineering

Data Analytics: Data Analysis, Excel, Power BI, Pandas, NumPy

Frontend Technologies: React.js, HTML5, CSS3, Bootstrap

Backend Technologies: Node.js, Express.js, REST APIs, MongoDB

Developer Tools: Git, GitHub, Visual Studio Code, Postman, Android Studio

Cloud & DevOps: Linux Fundamentals, CI/CD Concepts

Core CS: Data Structures & Algorithms, OOPs, DBMS, Operating Systems, Computer Networks

Software Engineering: Problem Solving, JWT Authentication, API Development, Team Collaboration

Experience

Avantikulam

Software Engineer Intern

May 2024– July 2024

Bhopal, Madhya Pradesh

- Developed and maintained scalable backend services using Node.js and MongoDB for an EdTech platform.
- Collaborated with cross-functional teams using Git-based workflows and Agile development methodologies.
- Optimized API and database performance, improving response times by approximately 30%.
- Participated in software testing, debugging, deployment, and production support activities.

Certifications

- Microsoft Excel for Data Analysis
- Machine Learning Fundamentals
- GitLab CI/CD Fundamentals
- Data Structures & Algorithms - GeeksforGeeks
- SQL - GeeksforGeeks
- Web Development - Apna College
